

# Fetal Ultrasound Program (FUP) Onsite 2016-17

## Onsite Class "Genetics for All"

10th January 2016  
Chinmaya Mission Hospital, Bangalore

# Introduction

The new session of FUP Onsite 2016-17 starts with a special class on genetics, an extremely important clinical field given its interdependence with fetal medicine.

The advancement in genetic studies has made it possible to identify and diagnose some major diseases and disorders at the fetal stage. Some of the commonly seen problems are rooted in gene study and with the right investigation can be identified and diagnosed at the prenatal stage.

The class covers several aspects of genetic disorders in relation to fetal scanning and care, causes and risk factors, investigation, identification and possible diagnosis demonstrated through case discussions.
