80ft Road, HAL II STage, Indiranagar, Bangalore 560 038, India

www.fetalandgynaemaging.com

The **FUP- Fetal echo class** is a knowledge based training that covers normal and abnormal fetal heart exhaustively.

This 2-days program provides basic and intermediate fundamental information necessary to acquire knowledge and skill in performing Fetal Echocardiography Ultrasound exams.

This is part of our flagship Fetal Ultrasound Program class on fetal cardia and the seats are limited to only **30 delegates, on first come first served basis.**

From the past records of such sessions, these interactive small group classes have been very successful for individual practitioners who are aspiring to improve their fetal cardiac scanning skills and make appropriate diagnosis and plan management for the tiniest patient in this world!

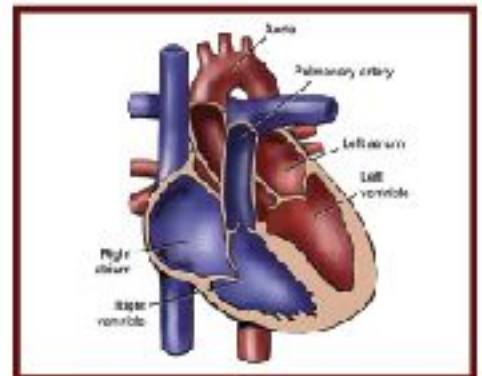

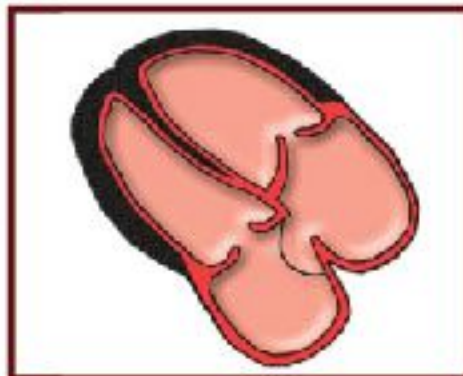

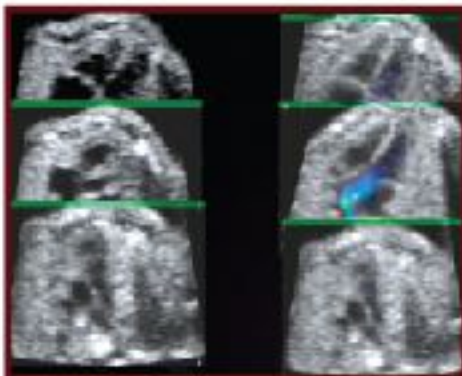

The program is conducted by Team BFMC and will be held at our new FGi training centre.

Registration fees

Current and FUP ONSITE Alumni
INR 5000 + 18% GST

Non-FUP delegates
INR 10,000 + 18% GST
